Inhaltsverzeichnis

Fifth Menu Screen

The *SmartEPGvu*+ menu can be accessed by pressing the menu key on the remote control when a view is open.

The menu can always be called up when one of the views is displayed.

Meaning of the individual keys actions when using the menu:

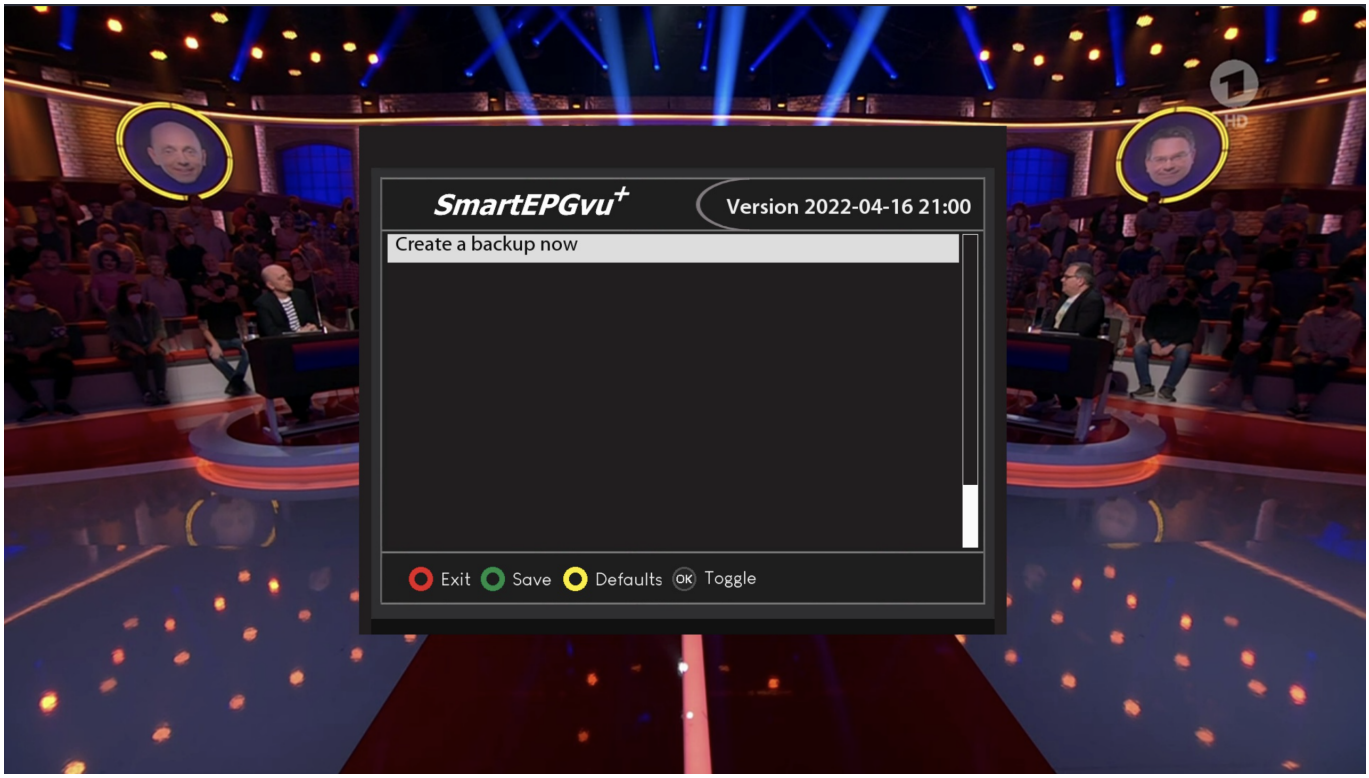

Exit
closes the menu window without saving. However, a query is displayed asking whether you really want to exit without saving.

Save
The current setting is saved.

Default values
All settings will be reset to default.

Toggle
Settings that can be determined via a ✔ or ✖ can be selected or deselected with the OK key.

Each menu item can be changed with the right/left keys.

- **Create a backup now**

The files listed below are backed up on a daily basis. Each backup is kept for 14 days. They are located in the directory “SmartEPG_Backup” on the “SmartEPG_Backup” on the Vu+ HDD.
This backup can also be started manually through the setup menu. However, any older backup for that day will be overwritten.

- Search.xml
- SEvuFile.db
- SmartEPGvu.xml
