Timer - View 5 3

Timer - View 5

This view can be assigned to any key or called from another view with the 5 key.
A key can be set in the setup menu item „ Key for the Timer list“. All existing timers are displayed.

Timer entries are displayed with text colours. The meaning of the colours is explained HERE. In addition, a corresponding icon is displayed on the right side of the line for each timer type. The meaning of the timer types is explained HERE.

SmartEPGvu+ uses a data base called FileDB, to accumulate shows that have already been recorded. Previously recorded shows are indicated with a , and repeated recordings for series is prevented (blocking of timers). Timers with circular arrows indicate that the show to be recorded is a repeat.

Explanation of the keys

Create new timer

Filter display by "all timers" or "unblocked timers" or "blocked timers"

Confirm new timer. This option is only available if the "Show new timers" option has previously been activated in the settings menu.*

Block or unblock timers

Change timer type (R, P or M timer) - more detailed explanation under Timer types

Delete the marked timer

Display the extended information of the selected program

Jumps to the program in the Guide - View 1

Switch to the File Database Editor

Edit highlighted timer

Jump to View 1 - Guide

Jump to View 2 - Overview

Jump to View 3 - Grid

Jump to View 4 - Next event

Jump to View 6 - Search

Calls up the SmartEPGvu+ menu

Exit

* If the timer is not confirmed, the show will still be recorded. The timer colour then remains dark green.
If the timer is confirmed with , the colour adapts to the time of the planned recording.

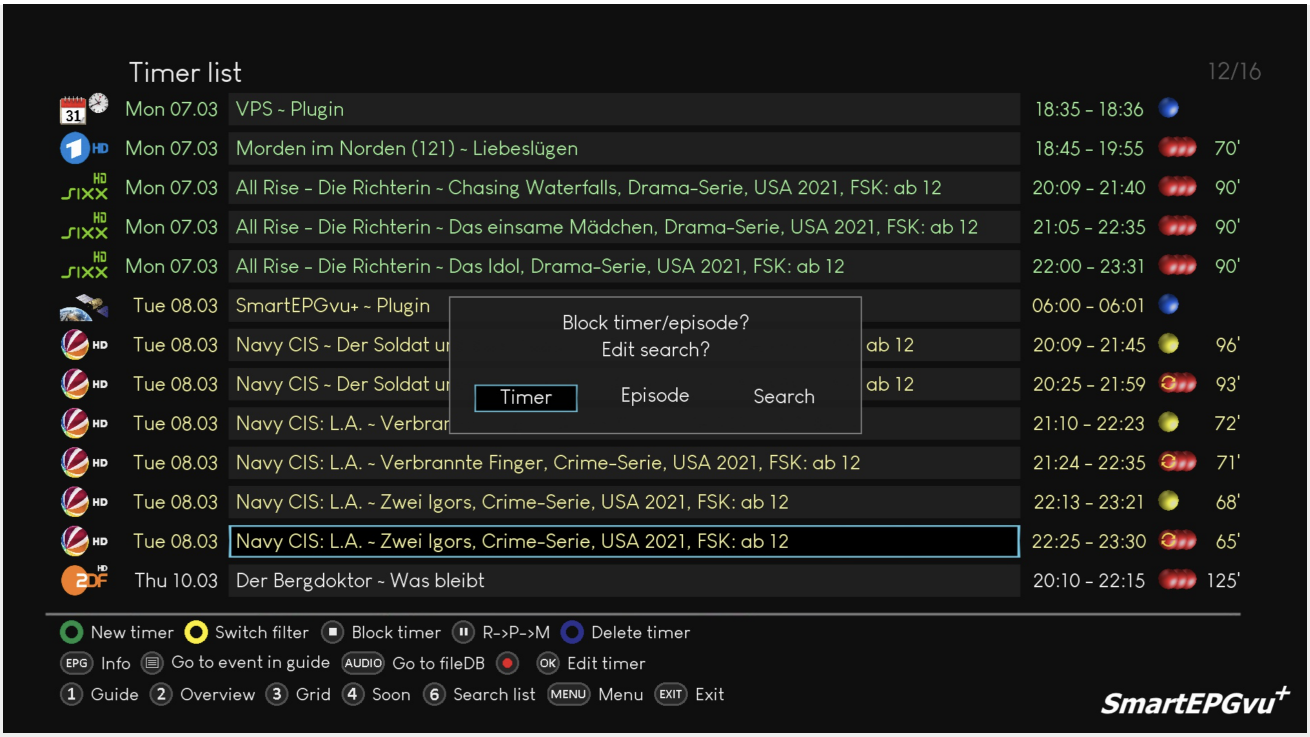

Edit timer with editor

If you press or , the editor appears to edit the timer.

The timer editor is explained in more detail HERE.

Block timer

If you press the key, a pop-up appears with a selection of block options.

- If you select the „Timer“ option, only this timer is blocked, a new recording is possible if the program is repeated.
- If you select the „Episode“ option, this and all future replays of this episode will be blocked and not recorded.
- If you select „Search“, the search timer can be edited. The „Search“ is explained in more detail HERE.

If an Episode is to be blocked automatically, then the Record Mode for this program must be set to „Series“ and not to „All“.
