Timer View - View 5 3

Timer View - View 5

This view can be assigned to any key or called from another view with the 5 key.
A key can be set in the setup menu item „Key for the Timer list“. All existing timers are displayed.

Timer entries are displayed with text colours. The meaning of the colours is explained HERE. In addition, a corresponding icon is displayed on the right side of the line for each timer type. The meaning of the timer types is explained HERE.

SmartEPGvu+ uses a data base called FileDB, to accumulate programs that have already been recorded. Previously recorded programs are indicated with a , and repeated recordings for series is prevented (blocking of timers). Timers with circular arrows indicate that the program to be recorded is a repeat.

Explanation of the keys

	Create new timer
	Filter display by "all timers" or "unblocked timers" or "blocked timers"
	Confirm new timer. This option is only available if the "Show new timers" option has previously been activated in the settings menu.*
